1. INTRODUCTION

The City of Emeryville (“City”) has policies and programs to support affordable rental and homeownership through the creation, maintenance, and preservation of affordable rental and homeownership opportunities for income-eligible households. The City currently implements this mission primarily through the following activities:

- Providing low interest rate loans to produce new affordable rental housing
- Creation of deed restricted Below Market Rate (“BMR”) units through the City’s Affordable Housing Set-Aside Ordinance.
- First Time Homebuyer assistance directly to income eligible buyers in the form of fully deferred “silent second” mortgages

Prior to the dissolution of the Emeryville Redevelopment Agency in 2012, a variety of affordable housing programs were implemented which have long term compliance requirements the City must manage. These homeownership and rental assets include over 230 BMR ownership units, 180 homebuyer loans and over 600 existing BMR rental units.

In 2018, Emeryville voters approved the issuance of up to \$50,000,000 in general obligation bonds to support the production and preservation of affordable housing in Emeryville. On March 2, 2021 the City Council approved the Affordable Housing Bond Administration and Expenditure Plan (“Expenditure Plan”). The Expenditure Plan guides the expenditure of the Measure C Affordable Housing Bond funds, as well as approximately \$14,000,000 in additional affordable housing resources available to the City, for a total investment of over \$64,000,000. The Expenditure Plan programs funding for a variety of programs including first time homebuyer loans, foreclosure prevention, and development of additional affordable rental housing.

In light of the demands of the existing affordable housing portfolio as well as the increase in affordable housing activities called for in the Expenditure Plan, the City has determined that additional support is needed to ensure timely implementation and administration of the affordable home ownership programs and to ensure the City is implementing current best practices for the preservation of its existing affordable housing stock.
